Highlight changes

Version Control System

- Sebuah sistem yang menyimpan ‘**rekaman / snapshot**’ perubahan pada source code.
- Memungkinkan bekerja **berkolaborasi** dengan lebih baik.
- Mengetahui **siapa** yang melakukan dan **kapan** sebuah perubahan terjadi.
- Memungkinkan kita untuk kembali ke keadaan sebelum perubahan (**checkout**).

Preamble
The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.
